33

Dated 3-1-1942

[Despatch Abstract.]

License - S.Kanara District Board cashewnut factories - mitigation of nuisance.

Para 12 of the Audit Report on the General Fund Accounts of the South Kanara District Board of the South Kanara District, for the year 1938-39.

x x x x

LICENCES FOR DANGEROUS AND OFFENSIVE TRADES - NOT ISSUED.

12. In the Mangalore Taluk, no licences were issued in practically any of the cases where cashew-roasting was carried on. The amounts of licence fees were, however, collected from the parties. The non-issue of licences was stated to be due to the fact that the roasting sheds were within 200 yards of dwelling houses, and that the cottage-roaster was not actually used for roasting, as directed in G.O.No.749 P.H., dated the 24th February 1938, to mitigate the smoke-nuisance. In his letter No.474/38 dated the 29th July 1938, the District Health Officer has reported to the Director of Public Health that at a conference of the President, District Board and the proprietors of the cashew industry, the use of the cottage-roaster and the provision of double chimney were considered impracticable, and that a mutual understanding was arrived at that the observance of the above provisions will not be insisted upon. As the non-issue of licences, as a rule, might affect the legality of the collection of licence fees, it seems necessary that at least provisional licences should be issued subject to the observance of the other usual conditions.

Madras.

Sir,

Reference :- Government Memorandum No. 37883-A1 -E1 P.H., dated 25-9-1940.

The use of the double ~~cimney~~ chimney, suggested in the by-laws (No. 8) of the by-laws framed by this Board or the Cottage Cashew roaster, recommended in G.O.No. Ms. 749 P.H., dated 24-2-38, by the owners of cashew-nut factories in this district, cannot be insisted on for the reasons that the first does not serve the purpose of taking away the irritant fumes high into the air. Furthermore, small industrialists cannot possibly afford to put up the roasters. The second -

P.T.O.

contrivance is found to be uneconomical and inconvenient for small industrialists. In the interest of the growth of the trade in question, the by-law relating to the mitigation of smoke nuisance by the use of either of the above two impracticable and costly contrivances has not been -- insisted on and only conditional licenses are being issued by this Board at present, pending introduction, by Government of some other workable contrivance for the mitigation of smoke nuisance, when the by-law thereto will be ~~brought~~ brought into full force as recommended by the District Health officer, South Kanara.

PRESIDENT,
Dt. Board, S.Kanara.

Education and Public Health Department.

Sir,

With reference to Government Memorandum No. 37883-A-1-El-P.H., dated 25th September 1940, I have the honour to forward herewith a copy of letter No.2277/A/38 dated 7-12-40 from the Director of Industries and Commerce for the information of Government. Government will be addressed again on the subject on receipt of a further report from him.

I have the honour to be,
Sir,
Your most obedient servant,

Lieut.-Col., I.M.S.,
Director of Public Health, Madras.

p. t. o.

Copy of letter:-

"The Superintendent, Kerala Soap Institute, Calicut, to whom I referred the question of designing a small roaster costing from Rs.30 to 35 stated that he had been trying to roast some cashewnuts in a liquid medium at 140°c. to 160°c, on a laboratory scale and that the nuts could be roasted satisfactorily in a calcium chloride bath. For continuing the experimental work further special mechanical devices are necessary for, amongst other things, the automatic feeding of the nuts, separation of the oil, and recovery of the roasted nuts. These present some difficulties which cannot be easily overcome and unless someone is specially deputed for the work it is not likely that satisfactory results will be forthcoming. The Superintendent, therefore, suggested that the work might be entrusted to the P.S.G. & Son's Charity Industrial Institute, Peelamedu, which undertakes the design and construction of industrial plant and machinery of various kinds.

I addressed the P.S.G. & Son's Charity Industrial Institute in the matter and they have undertaken to design a roaster. They have not however, been able to take up the work so far and they hope to attend to it after three months.

I return herewith the enclosures forwarded with your letter quoted above. (R.No.35643-3-Hyg/40 dated 12-11-40)."

Ref:- Govt.Memorandum No.37883-A5-H.P.H dated 17-5-1941.

SPARE COPIES .....

By-law No.5 published in notification dated 29-10-1937 is in force. In 1940-41 on the recommendations of the District Health Officer, licences were granted in some special cases even for premises which did not strictly satisfy the condition specified in the by-law. In the current year also in a few special cases recommended by the District Health Officer, the by-law No.5 was not strictly enforced in some cases. But generally, licences were refused in cases where by-laws were not satisfied.

President,
District Board,S.Kanara.

He has been urgently reminded again this day to send up his report at once and on receipt of the same the final reply will be sent to Government.

Yours sincerely,

V.V.Subrahmanian Esq., I.C.S.,
Deputy Secretary to Government,
Education and Public Health Department
Fort St. George, M a d r a s.

p 16 of

C No. 41530, from the P.O.B. S. Kanara to 12888, 18xx

Attention is invited to the remarks of D. S. on p. 6 ante and the P.O.B's reply on p. 16 of. Under bye-law No 5, no license should have been issued for the roasting of cashewnuts within 200 yards of dwelling houses but licenses are reported to have been granted in some special cases on the recommendation of the D. H. O. As bylaws have the force of law, the grant of license (in such cases) is irregular but no action seems called for as the design for a cheap and suitable roaster is not yet ready and as there is no definite information when the P. S. and Sons, Peelamedu will be in a position to get the design ready. As the P.O.B. has already reported to Govt. that "Some workable contrivance for the mitigation of smoke nuisance is necessary", and as it is not desirable to allow roasting of cashewnuts within 200 yards of dwelling houses even in certain special cases Development may be requested to ascertain to say whether any cheap and workable contrivance can be suggested by the Dr. of Industries and Commerce

(L) 85

pp 10-11 of

pp 4-5 of

if the P.S.G and Sons will not be in a position to furnish a design within a reasonable period—

As regards the "Cottage Cashew nut roaster" recommended in Govt. No. 749-B/2 dated the 24th February 1938 attention is invited to the PDB's letter on pages 4-5 of the Conference is considered "uneconomical and inconvenient to small industrialists" Dept may see the case.

1954-5 Q

As the question whether any workshop or engineering firm other than P.S. & Sons will undertake the designing of a roaster has been referred to the Dr. of Industries and Commerce And as the P. Obs. S. Kumara has asked for the some workable Contrivance already, further action may be deferred till the reply of the D.I.C. is received. Dem. may be reminded on 15.11.41.

31/10

31.10.41

Development may be requested to state whether the report of Dr. of I & C. has been received. If the report has not been received, Dem. may be requested to inform the Director to expedite his report as the file has been pending for a long time.

The file referred to overleaf since received from Development is linked. Attention is invited to the notes on pgs 5-6 thereof. If the proposal to entrust the Industrial Engineer with the work of designing a roaster referred to in that file is accepted, orders this file may be closed, after Communicating a copy of the orders in the l.f. to both the D.P.H and the P. O's. Sri Kaimara...

Remarks of D.S. on the top file C No. 46363/41 relating to Development

There is no power to compel factory owners to use the design, but no doubt most of them will do so if a cheap and efficient design is placed before them. The Dt. Bd. can also with greater justification refuse to give a licence for old and objectionable type of roaster. I think the D.I.E. may be asked to frame a design. The cost is not much.
